

## [PROPOSED FOR ADOPTION] MTUS Drug List ( 8 CCR § 9792.27.14)

The MTUS Drug List must be used in conjunction with 1) the MTUS Guidelines, which contain specific treatment recommendations based on condition and phase of treatment and 2) the drug formulary rules. (See 8 CCR §9792.20 - §9792.27.21.) "Reference in Guidelines" indicates guideline topic(s) which discuss the drug. In each guideline there may be conditions for which the drug is Recommended (✓), Not Recommended (✗), or No Recommendation (⊙). Consult guideline to determine the recommendation for the condition to be treated and to assure proper phase of care use.

\* Preferred / Non-Preferred - "Preferred" indicates drug may be prescribed/dispensed without seeking authorization through Prospective Review if in accordance with MTUS. 1) Physician dispensed "Preferred" drugs limited to one 7-day supply without Prospective Review. 2) Prescription/dispensing of Brand name Preferred drug where generic is available requires authorization through Prospective Review. "Non-Preferred" or "Unlisted" drug requires authorization through Prospective Review prior to prescribing or dispensing. (See 8 CCR §9792.27.1 through §9792.27.21 for complete rules.)

\*\* Special Fill - Indicates the Non-Preferred drug may be prescribed/dispensed without Prospective Review: 1) Rx at initial visit within 7 days of injury, and 2) Supply not to exceed #days indicated, and 3) is a generic or single source brand, or brand where physician substantiates medical necessity, and 4) if in accord with MTUS. (See 8 CCR § 9792.27.11.)

\*\*\* Perioperative Fill - Indicates the Non-Preferred drug may be prescribed/dispensed without Prospective Review: 1) Rx issued during the perioperative period (2 days before through 4 days after surgery), and 2) Supply not to exceed #days indicated, and 3) is a generic or single source brand, or brand where physician substantiates medical necessity, and 4) if in accord with MTUS. (See 8 CCR § 9792.27.12.)
